

Advantageous Establishment.

THE subscriber, because of circumstances which have lately occurred in his family, wishes to admit a partner in the business of the Henrico Gun-Powder Works, about a mile and a half from Rocketts, or to sell his rights in the same: Said works are so nearly completed, that they will soon be in operation, and the manufacturer who is engaged to manage the making of the powder, understands the whole art so as to make it equal to any imported.

None need apply for a share who cannot advance soon \$1000, and employ their resources in the course of the business; there is a fair prospect that said works will be a very advantageous establishment; for further particulars apply to

SEVEN HUNDRED ACRES OF FIRST RATE SOUTH WEST

MOUNTAIN LAND,

FORMERLY a part of the estate of the late Col. James Madison, and lying in Orange county, within forty-five miles of Fredericksburg, and seventy-five of Richmond. The above tract of land is generally considered the best tract of high land in the county for tobacco, corn and wheat, and will produce from ten to fifteen bushels of wheat to the acre without manure or any other aid. There is a sufficiency of meadow land on it, and most of it reclaimed. It is under good fences, and in the course of the year I shall put on it a tolerable dwelling house and an excellent barn three stories high, with a stable in the lower one, with a wheat machine on the Scotch model.

Another tract of LAND, lying in Amherst county, on Harris's creek, within five miles of Lynchburg, and containing five hundred and five acres, being part of a tract formerly belonging to Col. Hugh Rose, dec. This tract is considered of equal quality to any land in a neighborhood generally esteemed the best soil for tobacco in Amherst. Any person inclined to purchase the land in Orange, will apply to the subscriber residing on the premises; and for the land in Amherst, to G. A. Rose, of Lynchburg, or to Mr. Landon Cabell, of Amherst. Negroes (in families) will be taken in exchange for either or both of the above tracts of land.

Patent Iron-bound Boots, Bootes, and Shoes.

JOHN BEDFORD,

PHILADELPHIA,

RESPECTFULLY informs the public in general, and Store-keepers in particular, that he is now prepared to supply them with the above valuable goods, wholesale and retail, on moderate terms.

Shoemakers, also, may be supplied with patent-rights, on easy terms, which they will find it highly their interest to obtain, as they can, by this improvement, make four times the quantity of shoes, with their usual number of hands: for example, the usual work of three men, is only three pair of common shoes per day; whereas, in the improved way, three men, with the assistance of a boy, can make from twelve to fifteen pair per day. Thus the advantages resulting from this improvement, are evidently of the most essential importance: in the first place, three-fourths of the labor is saved: in the second place, half the leather is saved, (for one pair of shoes, made in this way, will wear as long as two pair, made in the usual way) and, in the third place, there is a saving of flax (at the rate of one pound, to twenty-four pair of shoes) they are also much more waterproof than the others, and easier mended.

These are well ascertained facts, proved by actual experience. The patentee therefore hopes, that an improvement, fraught with such important public utility, will not only engage the attention, but the encouragement of every friend to the infant manufactures of this country. It may not be amiss to remark, that the country Shoemaker, in particular, may derive incalculable advantages from this improvement, as he can supply his customers in one-fourth of the time he has usually devoted to that purpose, and have the other three-fourths for the cultivation of his farm, or other avocations.

Price of patent-rights, for the country, 100 dollars. For states, districts or towns, in proportion. Applications may be made to the Patentee, or to Mr. Jacob Harrison, Richmond. 3m Feb 12, 1807.

FOR SALE,

MY LANDS in Cumberland county, lying on Appomattox river, joining the lands of Mess. William & George Skipwith; this Land is equal if not superior to any Land in Cumberland county, off James river, it contains 607 acres, one half of which is covered with fine timber of every description. There is on this land a decent DWELLING HOUSE, and between four and five hundred bearing apple trees of choice fruit. One third of the money will be expected when a title is made, the other two thirds may be divided into two annual payments. Mr. Jerman Baker or Mr. William Skipwith will shew the land to any person wishing to become a purchaser.

RUN AWAY from the Subscriber living near New-Castle in the lower end of this county, on the 27th of March last, a Negro Man

BILLY,

About 50 years of age, and about 5 feet 6 or 7 inches high; he is of rather delicate form, a little inclined to a yellowish complexion, and considerably marked in the face with the small pox; his hair rather inclines to be bushy, tho' not very long: He is a fellow of good understanding, a well informed mind, and very specious insinuating manner; he speaks rather quick and pert, and has a disposition to be very polite: He no doubt, will attempt to change his appearance, by altering his name, changing his hair for a wig, &c.—He is pretty well known in most parts of this state, as well as in the Carolinas and Georgia, as the waiting man and fiddler of Mr. Nicholas M. Johnson, of whom I purchased him.—His wife lives in Richmond, where he has frequently been since his capture; and he has also been a part of his time in Petersburg; and his wife has a daughter a free woman living in Norfolk, where it is probable he has been also.—Tho' having so general an acquaintance, there is no knowing where he will keep himself.

I will give the above reward to any person who will deliver the said runaway to me, in Hanover.

Lee's Worm-Destroying Lozenges.

This medicine is superior to any ever offered to the public, being innocent and mild, certain and efficacious in its operations. Should no worms exist in the body, it will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders.

They are excellently adapted to carry off superfluous bile, and prevent morbid secretions—to restore and amend the appetite—produce a free perspiration, and thereby prevent colds, which are often of fatal consequence—a dose never fails to remove a cold, if taken on its first appearance.—They are celebrated for removing habitual constiveness—sickness at the stomach, and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Lee's Grand Restorative.

Proved by long and extensive experience, to be absolutely unparalleled in the cure of Nervous Disorders, Consumptions, Lowness of Spirits, Loss of Appetite, Impurity of Blood, Hysterical Affections, inward Weaknesses, Violent Cramps in the stomach and back, indigestion, Melancholy, Gout in the stomach, Pains in the Limbs, Relaxations, Involuntary Emissions, Obstinate Gleet, Flour albus (or whites,) Impotency, Barrenness, &c. &c.
